## Objective

Motivated BCA student with strong foundations in full-stack development, artificial intelligence, and software engineering. Skilled in building real-world applications using PHP, MySQL, JavaScript, and REST APIs. Passionate about developing secure, salable, and impact solutions in smart city systems, women's safety platforms, and AI-powered applications.

## Projects

- **SafeWay – Women Safety Web Application**
  - Integrated Google Maps API for real-time location tracking with automatic refresh.
  - Added a Trusted Contacts module allowing users to securely store and manage emergency numbers.
  - Implemented auto video capture and periodic sending for enhanced safety during critical situations.
  - Tech: HTML, CSS, JS, PHP, MySQL, Twilio, Google Maps API, etc.
- **Spark - Smart Event and Attendance Management System**
  - Built a smart event management platform with QR code-based attendance for secure and instant check-ins.
  - Designed a real-time dashboard to monitor attendees, event statistics, and check-in history.
  - Added role-based access for admins and coordinators to manage events efficiently.
  - Tech: HTML, CSS, JavaScript, QR API, Google Calendar API, MongoDB, etc

## Internship

### IBM SkillBuild Internship Program

2025

- Artificial Intelligence and Machine Learning Foundations
- Software Development Skills
- Exposure of technical tools
- Project-Based Learning
- Professional Growth

## Education

### Bachelor of Computer Application

2023 - 2026

- Graphic Era Hill University  
Haldwani, Uttarakhand

## SKILL

<b>Tech Skills</b>	Full-Stack Web Development (HTML, CSS, JavaScript, PHP, MySQL), API Integration (Twilio, Google Maps, REST APIs etc), Database Management and SQL (MySQL, MongoDB), Programming Languages (C, C++, Java, Python)
<b>Soft Skills</b>	Problem-Solving, Teamwork and Collaboration, Quick Learning Ability, Time Management, Leadership (Hackathons and Project Handling)

## Co-Curricular Activities

- Secured 2nd Position in Webathon Competition.
- Selected in the Final Round of a Hackathon among 1000+ Teams.
- Participated in Google Arcade – Cohort 1 and Cohort 2 (2025).
- Participated in the Oracle Run Event.
- Completed Kaggle x Google – 5-Day AI Agents Intensive Program.
- Volunteered in Event Organizing and Management Activities.
- Former NCC Cadet – 78 UK Battalion.
- Actively engaged in Technical Events and Tech Fest Competitions.
- Worked as a Content Writer for ISBN-Published Book Projects.
