Profile

Hello, I'm **Manish Shukla**, a passionate full-stack web developer skilled in **HTML, CSS, JavaScript, PHP, MySQL**, and **React.js**. I build responsive, user-friendly web applications that solve real-world problems. My projects, like the **Smart City Complaint System** and **Women Safety Web App**, showcase my ability to integrate APIs such as **Google Maps** and **Twilio** for practical solutions. I'm a fast learner, team player, and detail-oriented developer who thrives in dynamic environments. I bring value through efficient coding, user-centric design, and strong backend logic. I'm ready to contribute to impactful projects and grow with your company.

Professional Experience

Full-Stack Web Developer (Project-Based)
Smart City Complaint System
- Developed a complaint management system for smart city services using PHP, MySQL, JavaScript, and Google Maps API.
- Designed responsive user interface and implemented admin panel for complaint tracking.
- Integrated location-based complaint submission and real-time status updates.

Frontend Developer (Freelance Project)
SafeWay – Women Safety Web App
- Built a women safety platform with features like live location tracking, Twilio SMS alerts, and trusted contacts.
- Worked on mobile responsiveness, clean UI, and integration of Google Maps API.
- Implemented OTP-based login, emergency SOS features, and auto video recording logic.

Junior Web Developer (Personal Project)
Smart Attendance System using QR Code
- Created a QR code-based attendance system using PHP and JavaScript.
- Designed a simple dashboard for faculty to track student records securely.

Education

2023 – Present	**BCA**	
Haldwani, India	*Graphic Era Hill University*	

Extra Curricular and Certificate

Tata Data Visualisation: Empowering Business with Effective Insights Job Simulation on Forage - June 2025
- Completed a simulation involving creating data visualizations for Tata Consultancy Services
- Prepared questions for a meeting with client senior leadership
- Created visuals for data analysis to help executives with effective decision making

Deloitte Australia Cyber Job Simulation on Forage - June 2025
- Completed a job simulation involving reading web activity logs
- Supported a client in a cyber security breach
- Answered questions to identify suspicious user activity

Skills

Web Development ● ● ● ● ○
- HTML5, CSS3, JavaScript (ES6+), React.js
- PHP, MySQL, XAMPP

Backend & Database ● ● ● ● ○
- RESTful APIs, CRUD operations
- Database Design & Management (MySQL)

Tools & Technologies ● ● ● ○ ○
- Git & GitHub, VS Code, Postman, Firebase
- Google Maps API, Twilio SMS API, Credly, Netlify

Soft Skills
- Problem Solving
- Team Collaboration
- Communication
- Adaptability
- Fast Learner

UI/UX & Design ● ● ● ● ○
- Responsive Web Design
- Interactive UI/UX with CSS Animations
- Wireframing and Prototyping

Languages

- English
- Hindi

Certificates

Cyber Job Simulation
Issuing Organization: Deloitte (via Forage)

Data Visualisation
Issuing Organization: TATA (via Forage)

Introduction to Artificial Intelligence (AI)
Issuing Organization: IBM (via Coursera)

Implement DevOps Workflows in Google Cloud
Issuing Organization: Google Cloud

Big Data Analytics
Issuing Organization: Infosys Springboard

Generative AI for Executives and Business Leaders
Issuing Organization: IBM (via Coursera)

Introduction to Cybersecurity
Issuing Organization: IBM (via Coursera)

Getting Started with Data Analytics on AWS
Issuing Organization: AWS (via Coursera)

Projects

SafeWay – Women Safety Web App
- A safety platform for women with emergency SOS, live location tracking, and auto video/audio capture.
- Features: SOS button, SMS alerts (Twilio), Trusted Contacts, Google Maps Live Location, OTP Login/Registration, Safe Route Suggestions, Unsafe Area Reports, Admin Dashboard.
- Tech Stack: HTML, CSS, JavaScript, PHP, MySQL, React.js, Twilio API, Google Maps API.

Smart City Complaint System
- A full-stack web application to report, track, and manage city-level complaints.
- Features: Login/Registration (with OTP), Complaint submission with image/location, Admin Panel, Complaint Status Tracking, Google Maps Integration, Email Notifications.
- Tech Stack: HTML, CSS3, JavaScript, PHP, MySQL.

Smart Attendance System Using QR Code
- A simple web app that marks attendance by scanning QR codes.
- Tech Stack: HTML, CSS, JavaScript, PHP, MySQL.
- Objective: Low-cost, efficient attendance system for classrooms or institutions

Anonymous Two-Way Chat App
- A web-based anonymous chat platform that allows users to connect and chat with strangers.
- Features: Chat history auto-deleted on logout, no registration needed.
- Tech Stack: HTML, CSS, JavaScript (no React).

Interests

- Web Designing & Development
- Watching Tech Tutorials
- Problem Solving & Logic Games
- Exploring New Technologies
- Blogging & Content Sharing
- Hackathons & Coding Challenges
- Listening to Music
